

Solar PV Cable

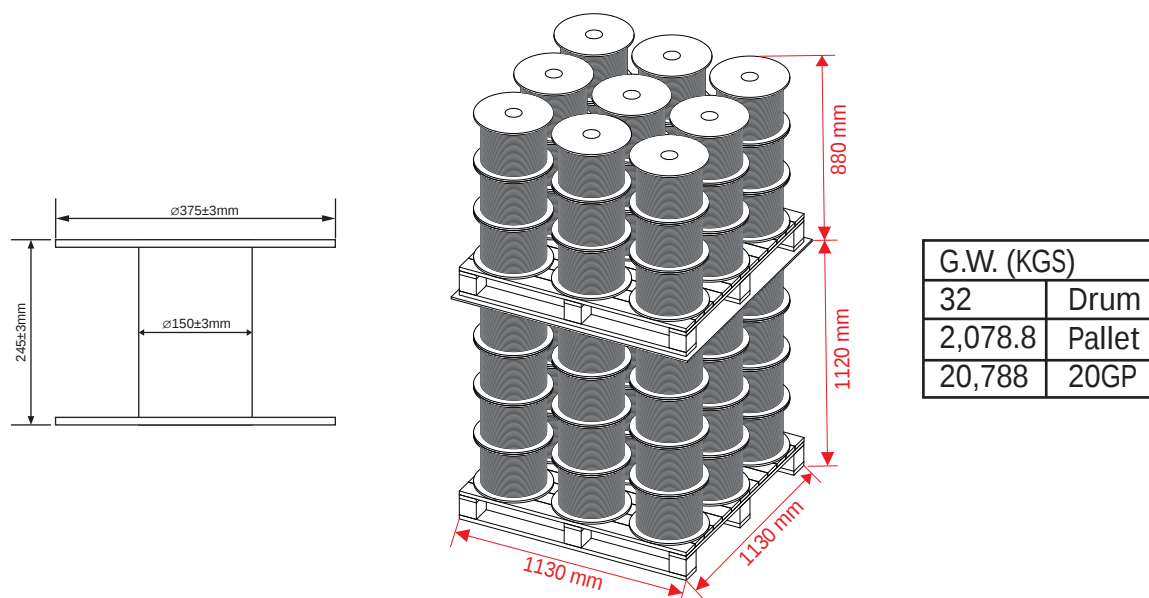

EN 50618(H1Z2Z2-K)

Package Details

- 
- A 3D rendering of a solar PV cable. The cable is shown in two segments: a black outer jacket and a red outer jacket. The black segment is positioned above the red segment, and both are angled diagonally from the bottom left towards the top right. The ends of the cables are stripped back, revealing a silver-colored braided shield and a central copper conductor.
- Low smoke halogen-free
 - Neatly wrapping
 - Weather, UV, ozone resistant
 - 25 years expected service life
 - Greater mechanical stability
